CHAMPAGNE ALEXANDRE GRIMEE 2015 Sous Les Trous Bonneil BdN

CHAMPAGNE
Alexandre
GRIMÉE

In 1973, Alexandre Grimée's grandparents planted 0.6 hectares in a little known village called Bonneil in the western portion of the Marne Valley. They planted Meunier in an ideal position mid-slope between the forest above and the river below. Five decades later the vines are still producing some of the best Meunier in the region. Alexandre began making his winemaking career in 2014 at the age of eighteen and has rather quickly rose in prominence and prowess.

Alexandre makes one wine, from one plot, in one village and it is always single vintage. He has been able to increase his vineyard holdings to 1ha and produces about 2,000 bottles a year. The amount of wine to go around is minuscule yet he has already begun to create a devoted following around the champagne loving world.
