AGRAPART AVIZE AMEUNIA

HISTORY

Agrapart et Fils was founded in 1894 by Arthur Agrapart in the village of Avize. The tradition of crafting world class Chardonnay passed to his son Arthur in the 1950's, his son Pierre in the 1980's and then on to Pascal and Fabrice and has endured for over a century. Fabrice spent four decades as the force in the cellar crafting what is now recognized as one of the top growers in all of Champagne.

Fabrice has charted another path forward with his new, and highly ambitious project Agrapart Avize. The tone is forward looking with an eye to sustainable practices in harmony with the vineyard cycles. He is laser focused on celebrating the terroir he has come to know through his work with the family domain. Along with his partners, Emmanuel and Johanna, Fabrice is building a new winery, hotel/ restaurant and a new legacy. This

winery is a new beginning with 100 years of experience and tradition. His new legacy is being written brick by brick and on his own terms.

THE WINERY

LOCATION	Avize
